

SAFETY MATH

Snow and Ice
+ Attention
- Falls
= Equals

“SAFE”

Professor U.B. Wise Says:

- * Ice may be present, even if a surface looks dry.
- * Think traction, wear appropriate shoes.
- * When you see snow, take it slow.
- * Slips and falls on snow and ice are the most common and costly type of injury in Utah schools.
- * Do the math and be “SAFE”
