*Once we hear from each district we will begin to organize a schedule and space. Our desire is to have each district represented as well a variety of ages and types of presentations this day. We will provide you with more specifics in January and a schedule of events in early February. If you wish to have both a performing arts as well as a visual display, please fill out two applications, but indicate on your district line 1st choice or 2nd choice. We need to have a good balance of both and need to schedule everything.*
