

PC Tots is a happy, nurturing daycare environment. I have volunteered in the Pre-K class for two years, assisting with pre-reading skills, and enjoy my time here immensely. I've observed the teachers engage positively with each child, stimulating creativity with artwork, teaching the alphabet/basic phonics, and exploring other topics. (I find the kids like to tell me what they've learned about insects, in particular!) Children are encouraged to be self-sufficient, whether cleaning up after their snack time, or independently accessing materials to make crafts. They are encouraged to work through conflicts with classmates, and equipped with skills and approaches to do so. I would highly recommend PC Tots to parents working in the greater Park City area. This daycare fulfills a critical need in our community and does so in a very professional way. I am grateful to play a small part in their mission.
