The Joint Legislative Committee (JLC) of the Utah School Boards Association, Utah School Superintendents Association, and Utah Association of School Business Officials believes that families are the key to our success as a society and public education provides opportunity for all students.

Locally elected school boards have partnered with families, educators, and other elected leaders since 1890 to ensure that all students receive a quality education. We must continue to invest in our public education system. The JLC values and appreciates the support we receive from our legislative partners and looks forward to working together to reach our vision for Utah students and families.
