

WELCOME TO YOUR
USBA MASTER BOARD
CERTIFICATION
ONLINE TRAINING FOR EDUCATION LEADERSHIP

Welcome to USBAs' Master Board Certification Program

The goal of the MBC program is to educate new and experienced board members, superintendents and business administrators through <https://usba.rockstarlearning.com/> an online training portal that requires active participation throughout the year.

The program has four levels: 1. Strategic Learning, 2. Continuing Education, 3. Professional Improvement, and 4. Advanced Development.

The certification is earned by completing one level per year. The deadline for completion is Dec 1st!

You may work on this individually or as a whole board. Once a board or an individual has mastered all four years, the level 4. Advanced Development section will be updated annually for more experienced members.

Certification options

The certification options can be earned by completing one level per year by checking off all of the Five Areas of Achievement and completing the Open Meeting Law, School Finance, and School Community Council training and learner activities before Dec 1st. **An e-mail will be sent after an individual completes their training for the year.**

Option 1: Individual Board Member Award. Individuals who complete any level of training before Dec 1st will receive a Paper Certificate each year. Once the individual reaches four years of certification, a trophy will be awarded at the annual conference.

Option 2: Master School Board Award. A board that has a majority of its members (including the Superintendents and business Administrators) complete any level of training before Dec 1st will receive a plaque and, after that, a metal plate each year that can be added to the plaque yearly at the annual conference.
